Date : July 20, 2018

The kitchen is a such a personal room in your home; it's where you chat with your friends, where people gather to prepare dinner, at parties, or just to spend time together. Your countertop is on view for all your guests to see. With that in mind, are you thinking about redoing your [kitchen countertops](#)? These five granite color choices are among the most popular.

### #5 Luna Pearl

The pearlescent accents in the Luna Pearl slab add a luxurious look to a classic slab color combo. While the pattern is slightly bolder than marble, this slab is a nice option for homeowners who

considered marble but worry about softness; Luna Pearl's shimmery, opalescent flecks provide that softer, luminescent look marble is known for – combined with durability of granite.

## **#4 Bianco Antico Granite**

Bianco Antico [Granite countertops](#) feature a soft gray background with warm taupe and pink flecks. In addition to countertops, this beautiful granite can be used for coordinating backsplashes, accent walls, and floors. Granite is recommended for both residential and commercial projects, and can be used in exterior projects for wall cladding, landscaping, and countertops.

## **#3 Gray Star**

Most of this color comes from Fujian, China. Similar to black granite, gray star goes well with lighter woods and even with white and glass features. The Stone Shop is a fabricator in Ankeny, IA. Check out their elegant gallery of projects with all kinds of stones.

## **#2 Bianco Leblon**

Talk about versatile – Bianco Leblon slabs have a well-balanced black-white-gray composition. The effect is one that works with any kitchen hues – from dark to light – so it is no wonder that it's trending right now.

## **#1 Santa Cecilia**

Santa Cecilia granite is a stunning creamy white stone loved for its depth and beauty. It is quarried in Brazil and is occasionally called Giallo Cecilia granite. From a distance, Santa Cecilia looks reasonably uniform in its creamy color, no large mineral deposits will usually be visible. The overall effect is slightly mottled, and while you cannot see the intricate patterns in detail, you are able to see that there is something more to this stone that demands a closer inspection. Santa Cecilia granite is very tough and will be able to withstand many years of usage under normal conditions.
